Correspondence from South Boise, ROCKY BAR, Altoras county, August 3, 1864.

EDITOR OF THE BOISE NEWS: A meeting was called of the Union County Convention on the 1st instant, but the wires were so worked by office-seekers, that the said Conwention was adjourned for one month. It seems as if each candidate who wants an office, is very bitter in his declings against every one who would also like to be nominated for the same office, and if they do not act very carefully, they will split up and have two Republican or Union tickets in the field. The Democratic party are about to organize and will be a formidable opponent in this county. Arastras are building yet, and yesterday H. O. Rogers got to work with his in the town. He is at present crushing rock Trom the Comstock ledge. I examined a large quantity of this celebrated lead and scarcely found a piece of rock that gold was no't visible to the naked eye. As soon as the present stock on hand of Comstock rock is crushed, Rogers will commence on his lead, the Bay State, which promises very rich. A few days Bince a prospecting party to the southwest of us discovered some leads about ten or eleven Builes southwest of this; one is called the Rattlesnake, and is 103 feet wide, and crops out in a mass of rock over thirty feet above the ground. Twenty-five ciaims have been located upon it. The other two are smaller, thirty and ten feet respectfully,

Money is scarce, but not more so for the population than in Idaho C'ty.

Now about the wagon read: It is not finished and no one seems to knew when (if ever) it will be completed. The moneyed partner, J. Newberg, is not here, and Mr. Sidepartner, J. Newberg, is not here. bottom is carrying on the work with from four to seven men, and sometimes only two or three. I believe their charter calls for the is the quickest trip ever made. Mr. Hoproad to be finished by the lat Jaky, and it is kins informs us that the quartz ledges of the now over a mouth since that date, and about country he passed through are exceedingly seven or eight miles to complete, although it ledge is a remarkable instance of this wealth. is certainly with great risk passable for lightly laden teams within two and a half miles from the Landon, Lancaster, Pioneer, Fourth of this place, and although the road is not of July, Ella Gray, and Estelle Francis, in completed, the proprietors do not omit to levy tell on all comers and goers as allowed by

Now for the road from Idaho City to this place: A charter has been granted to some one to make a toll trail and road, but as yet nothing has been done and it seems as if hotel (" save the mark ") keepers on that road did not wish it done, as they cry out at every attempt to improve it, that "it can't be did." Now, sir, no wonder they like a bad road, as the extortion practiced by some at least; for instance, one gentleman informed methat he had stayed at Middle Boise-had for dinner some mush and milk and a cup of collee. Charge, \$1 50; a drink of brandy, 50 cents, and a cigar 50 cents. There is a good garden spot not yet appropriated, and some man of family, who does not expect to make a fortune out of travelers in six months, can do tolerably well there; and, as for grass, it is the best in the country, and excellent water, wood quite handy on the opposite side of the

Probate Court met 'here and adjourned to the 4th Monday in August.

In the Justice of the Peace Court, several criminal proceedings have taken place, for assaults, &c., with and without deadly weap ons. The latest was yesterday; John McIntire, alias Brick-Top, was fixed \$75 and costs for an assault on H. Wiggins. Our sheriffs do their duty and the 'Squire will do his, and thus we hope to keep a peaceable community.

A ball is set for to-night.

ZEILE & A. SUMMERS have bought the Pacific Brewery o Friend & Co., and are prepared to furnish Idaho city, and the vicinity, with a No. 1 arigide of flager.

38tf

Yours, respectfully,

A CORRESPONDENT at South Boise sends us the following in relation to the Mammoth -company:

The company own three lodes, one of which (the Mechanics') is from sixty to one hundred feet wide, and is supposed to be the main PLACERVILLE TO UMATELLA backbone ledge of the country. The other two, the Rattlesnake and Texas, are very wide, well defined and the rock prospects well. The excitement at Rocky Bar may be said to be intense. The company has ground enough to run two hundred stamps.

Silven City, Owyhee county, I. T.,)

August 12th, 1864. Ens. Borss Naws: Authe annual meeting of the stockholders of the Oro Fino Tunnel. · Company, held this day at their office in Silver City, the following named gentlemen were duly elected trustees to serve for the ensuing year: W. B. Crane, G. W. Hall, John B. Schaffer, of Owyhee county ; A. H. Robie, of Boise county, and Ex-Gov. G. L. Curry, of

UP GOES IDAHO.

BY GRAY EAGLN.

[The only knowledge we have of the paternity of the following lines is, that a person in miner's garb handed them in with the inquiry whether or not we ever published contributions from as rough a looking individual as himself:]

I'm stauding now upon the hill
That looks down on the town,
I'm thinking of that mighty will
Which never case bow down;
I mean the will of Enterprise
That made war nation grow,
And from thess Indian wilds built up
The town of Idaho.

For, lo! the silent Indian trod Alone in savage pride,
Net four years since, upon this sod,
Where now but whites reside;
This could not be his resting place,
For Enterprise said, go!
The red man turned to leave the land,
And my cost lights And up goes Idaho.

Not many years ahead I look— Where is the red man now? Not found beside the murmering brook, But gone, and none know where; First leaving one sequestered spot, And then one more, when le! The white man calls the smd his ewn— The red man's ldaho.

A few more years the telegraph A few more years the teregraph And rushing cars proclaim How teeble is the red man's wrath, Should be come back again; While cushing tides are bearing on, Stal further must he go, Until he makes his hunting ground Far, far from Idaho.

QUICK TRIP FROM IDAHO .- We had the pleasure yesterday of welcoming back Mr. J. P. Hopkins, of this city, who has recently Boise Basin, and from the Chiquita, South Boise. The country swarms with miners, some of whom of course find it a hard road to travel .- [Alta Cal., July 27.

HEAVIEST DEPOSITS EVER MADE.—Yesterday no less than 141 deposits of gold, for coinage, were made at the United States Branch Mint in San Francisco, the aggregate amount of precious metal being 14,000 ounces, worth little, if any, less than \$250,000. All this dust came from Idaho or Washington Territory, and was brought down on the Pacific on Friday evening. This is the largest num-Now, sir, no wonder they like a bad road, as on Friday evening. This is the largest num-travelers must stay with them and submit to ber of depositors at our Branch Mint in any one day since its establishment .- S. F. Alta, July 28th.

> PERSEVERENCE REWARDED .- A COFFESPORdent of the Placerville Democrat, writing from Fair Play, El Borado county, says the Buchanan Tunnel Company, at that place, after nine years of labor, and extending their tunnel nine hundred feet, on Saturday week struck a bed of beautiful gravel which prospects from seventy-five cents to one dollar to the pan. There is an abundance of it.

> YREKA, August 5 .- D. B. Warren, found guilty of an attempt to commit rape on the person of a little girl six years of age, was this evening sentenced by Sudge Roseborough to-ten years in the Penitentiary.
